HWSD and Conditions of Sale

As many of our buyers and sellers may be aware, there is a test available for Hoof Wall Separation Disease which identifies whether a pony is unaffected, a carrier of the disease or has the disease.

N/N means the pony is unaffected by HWSD.

N/HWSD means the pony is a carrier of HWSD but not affected.

HWSD/HWSD means the pony has the disease. However, some ponies may test positive but have no clinical signs of the disease.

2016 was the first year that the CPBS introduced HWSD testing for all foals that are being registered, ponies entered in the sales that have not been tested for HWSD will be sold as they stand. The results of HWSD testing can be found on CPBS website www.CPBSonline.cloudapp.net

Future testing that reveals the pony to be a carrier or positive for HWSD will not be considered as a valid reason for dispute.

As always it is recommended that purchases inspect each lot prior to purchase. The vendor is responsible for the accuracy of all information concerning the description and health of a lot. This would include the declaration of HWSD status if the vendor has that information (i.e. if they have received the results of the pony's HWSD test).

Each lot is sold under the conditions of sale of Connemara Livestock Sales which includes the above additions and are also subject to any announcement that may be made from the Auctioneers Rostrum. Therefore it is the responsibility of all bidders to be in attendance at the commencement of the sale of a Lot to hear any such announcements.

For information regarding HWSD please contact the Connemara Pony Breeders Society.

CONNEMARA LIVESTOCK SALES IRELAND 2014 LTD RESERVE THE RIGHT TO DEBARR ANY INDIVIDUAL FROM FUTURE SALES (EITHER AS A PURCHASER OR VENDOR) FOR FAILURE TO ADHERE TO THE CONDITIONS OF SALE.

HWSD and Conditions of Sale

As many of our buyers and sellers may be aware, there is a test available for Hoof Wall Separation Disease which identifies whether a pony is unaffected, a carrier of the disease or has the disease.

N/N means the pony is unaffected by HWSD.

N/HWSD means the pony is a carrier of HWSD but not affected.

HWSD/HWSD means the pony has the disease. However, some ponies may test positive but have no clinical signs of the disease.

2016 was the first year that the CPBS introduced HWSD testing for all foals that are being registered, ponies entered in the sales that have not been tested for HWSD will be sold as they stand. The results of HWSD testing can be found on CPBS website www.CPBSonline.cloudapp.net

Future testing that reveals the pony to be a carrier or positive for HWSD will not be considered as a valid reason for dispute.

As always it is recommended that purchases inspect each lot prior to purchase. The vendor is responsible for the accuracy of all information concerning the description and health of a lot. This would include the declaration of HWSD status if the vendor has that information (i.e. if they have received the results of the pony's HWSD test).

Each lot is sold under the conditions of sale of Connemara Livestock Sales which includes the above additions and are also subject to any announcement that may be made from the Auctioneers Rostrum. Therefore it is the responsibility of all bidders to be in attendance at the commencement of the sale of a Lot to hear any such announcements.

For information regarding HWSD please contact the Connemara Pony Breeders Society.

CONNEMARA LIVESTOCK SALES IRELAND 2014 LTD RESERVE THE RIGHT TO DEBARR ANY INDIVIDUAL FROM FUTURE SALES (EITHER AS A PURCHASER OR VENDOR) FOR FAILURE TO ADHERE TO THE CONDITIONS OF SALE.

HWSD and Conditions of Sale

As many of our buyers and sellers may be aware, there is a test available for Hoof Wall Separation Disease which identifies whether a pony is unaffected, a carrier of the disease or has the disease.

N/N means the pony is unaffected by HWSD.

N/HWSD means the pony is a carrier of HWSD but not affected.

HWSD/HWSD means the pony has the disease. However, some ponies may test positive but have no clinical signs of the disease.

2016 was the first year that the CPBS introduced HWSD testing for all foals that are being registered, ponies entered in the sales that have not been tested for HWSD will be sold as they stand. The results of HWSD testing can be found on CPBS website www.CPBSonline.cloudapp.net

Future testing that reveals the pony to be a carrier or positive for HWSD will not be considered as a valid reason for dispute.

As always it is recommended that purchases inspect each lot prior to purchase. The vendor is responsible for the accuracy of all information concerning the description and health of a lot. This would include the declaration of HWSD status if the vendor has that information (i.e. if they have received the results of the pony's HWSD test).

Each lot is sold under the conditions of sale of Connemara Livestock Sales which includes the above additions and are also subject to any announcement that may be made from the Auctioneers Rostrum. Therefore it is the responsibility of all bidders to be in attendance at the commencement of the sale of a Lot to hear any such announcements.

For information regarding HWSD please contact the Connemara Pony Breeders Society.

CONNEMARA LIVESTOCK SALES IRELAND 2014 LTD RESERVE THE RIGHT TO DEBARR ANY INDIVIDUAL FROM FUTURE SALES (EITHER AS A PURCHASER OR VENDOR) FOR FAILURE TO ADHERE TO THE CONDITIONS OF SALE.

HWSD and Conditions of Sale

As many of our buyers and sellers may be aware, there is a test available for Hoof Wall Separation Disease which identifies whether a pony is unaffected, a carrier of the disease or has the disease.

N/N means the pony is unaffected by HWSD.

N/HWSD means the pony is a carrier of HWSD but not affected.

HWSD/HWSD means the pony has the disease. However, some ponies may test positive but have no clinical signs of the disease.

2016 was the first year that the CPBS introduced HWSD testing for all foals that are being registered, ponies entered in the sales that have not been tested for HWSD will be sold as they stand. The results of HWSD testing can be found on CPBS website www.CPBSonline.cloudapp.net

Future testing that reveals the pony to be a carrier or positive for HWSD will not be considered as a valid reason for dispute.

As always it is recommended that purchases inspect each lot prior to purchase. The vendor is responsible for the accuracy of all information concerning the description and health of a lot. This would include the declaration of HWSD status if the vendor has that information (i.e. if they have received the results of the pony's HWSD test).

Each lot is sold under the conditions of sale of Connemara Livestock Sales which includes the above additions and are also subject to any announcement that may be made from the Auctioneers Rostrum. Therefore it is the responsibility of all bidders to be in attendance at the commencement of the sale of a Lot to hear any such announcements.

For information regarding HWSD please contact the Connemara Pony Breeders Society.

CONNEMARA LIVESTOCK SALES IRELAND 2014 LTD RESERVE THE RIGHT TO DEBARR ANY INDIVIDUAL FROM FUTURE SALES (EITHER AS A PURCHASER OR VENDOR) FOR FAILURE TO ADHERE TO THE CONDITIONS OF SALE.
